

USB Primus CC | 3 m | Black/Gold

Product number	D1C9533
Weight	0.192kg
Length	140mm
Width	225mm
Height	20mm

Product description

Anyone who has experienced the many benefits of a USB-C connection, such as the high speed of data transfers, the strong wattage in the power supply or the versatility of such connections, would not want to miss them again. Oehlbach has now paid special tribute to USB-C once again and developed the USB Primus CC, a state of the art cable that fully exploits the standard. It delivers data speeds of 20 GBit/s and PowerDelivery with 40 watts of power. The Primus CC is built for lossless transmission through and through on maximum quality of all components. This starts with the oxygen-free HPOCC inner conductor, continues with a triple shielding and a durable flexible fabric jacket and ends with the 24kt gold-plated full metal connectors with 100% contact security - and this remains fully intact thanks to the clever connector socket even with smartphones in the protective case.

Product properties

Features	24kt gold plated contacts, PVC Free, Reliable contact, loss-free signal transmission, 30 years warranty**
Product Category	Data cable
Shielding	triple shielding
Transmission rate	20 Gbps
Quality level	State of the Art
Shielding construction	2 x aluminium foil + 1 x copper braiding
Plug type 1	USB Type-C
Connection type	Data
cable length	3 m
Connector material	solid metal plug
Plug type 2	USB Type-C
Signal direction	IN/OUT
Inner conductor material	HPOCC® – mono-crystalline oxygen-free copper inner conductor
cable geometry	Round
Colour	Black/Gold
Lizenzen	SuperSpeed+ USB 20Gbs
