Product description

High-speed HDMI® cable with an optimized connector design for perfect handling and secure connection. The additional data channel (Ethernet channel) enables the connection of Internet-compatible AV components such as Blu-ray players and AV receivers without the need for an additional network cable. An inner conductor of silver-plated copper (SPC) with quadruple shielding guarantees loss-free signal transmission. The 24 carat gold-plated metal plugs offer absolutely reliable contact in every application situation. This also provides extremely effective corrosion protection. In terms of material and appearance, this high-quality 4-star cable features a hard-wearing and solidly processed full metal connector. The cable fully supports "HDMI High Speed" up to 20 m length!
