

USB Primus B | 2 m | Black/Gold

Product number	D1C9542
Weight	0.17kg
Length	140mm
Width	225mm
Height	20mm

Product description

USB type B connectors are often found on audio amplifiers, printers or scanners, storage media or presentation beamers. With this type of connection, absolutely reliable and loss-free data transmission is particularly important. This is exactly what the Oehlbach USB 2.0 data cable USB Primus B achieves. The USB A connection can be used reversibly, i.e. on both sides. Oehlbach's USB Primus B creates a state of the art connection with the USB type A to type B cable. This special quality is primarily due to a monocrystalline oxygen-free inner conductor made of HPOCC copper. Under a triple shielding it provides unrestricted data transfer. The USB Primus B cable is equipped with 24ct gold plated full metal plugs at the two connections for 100% contact reliability. Further protection is provided by the cable's high-quality fabric jacket. This prevents accidental kinking and strengthens the durability of this premium cable.

Product properties

Features	24kt gold plated contacts, PVC Free, Reliable contact, loss-free signal transmission, 30 years warranty**
Product Category	Data cable
Plug type 2	USB-B
Shielding	triple shielding
cable length	2 m
Lizenzen	Hi-Speed USB
Quality level	State of the Art
Shielding construction	2 x aluminium foil + 1 x copper braiding
Connection type	Data
Connector material	solid metal plug
Signal direction	IN/OUT
Inner conductor material	HPOCC® – mono-crystalline oxygen-free copper inner conductor
Plug type 1	USB 2.0 Type A
cable geometry	Round
Colour	Black/Gold
Transmission rate	480 Mbps
