

Speaker Wire Pro-15 | 500 m

Product number	D1C1061
Weight	0.05kg
Length	375mm
Width	375mm
Height	200mm

Product description

High-quality and particularly flexible stereo loudspeaker cable for connecting amplifiers and power amplifiers to loudspeaker boxes. This loudspeaker cable is suitable for amplifier performances of up to around 110 watts of power per amplifier channel. This Oehlbach cable's outer sheath consists of a tough, transparent and highly flexible mix of plastics. At the same time, the inner conductor is made up of many individual wires that in turn have been twisted together to form bundles and thus produce a high-quality box cable, which is extremely supple and can thus be flexibly laid. Oxygen-free copper (OFC) – which guarantees the very good and true-to-life transmission of signals both in the treble and bass ranges – has been used for the inner conductor.

Product properties

Plug type 1	open end
Plug type 2	open end
Inner conductor material	OFC - oxygen-free copper
cable material	plastic
Features	Made in Switzerland, 30 years warranty**, Stereo speaker cable
cable length	500 m
Quality level	Performance
Colour	Crystal clear
Connection type	Audio
Artikel FH Exklusiv	Ja
Product Category	Loudspeaker cable
Signal direction	IN/OUT
cable geometry	Round
power max.	For amplifier performances of up to 110 watts
