## Product description

The Oehlbach USB Evolution cable offers an unbeatable combination of high performance and reliability. With its 24 carat gold-plated contacts, it ensures perfect contact reliability and a stable connection. Thanks to the advanced 2-fold shielding, interfering influences are completely eliminated, ensuring loss-free signal transmission. The robust metal plug ensures a firm grip and durability.

The cable is made of highly flexible material, which makes it easy to install and use. The SPOFC (silver-plated oxygen-free copper) in the cable's construction ensures that high-quality transmission is guaranteed.

With USB 3.2 Gen 2 specification and Type A to B connector, the Oehlbach USB Evolution cable offers top-notch compatibility and enables fast data transfers at up to 10 Gbps. Whether you need it for home, office or professional use, this cable delivers outstanding performance and is a reliable choice.
