## Product description

DisplayPort multimedia tray. Designed as a gender changer, i.e. one DisplayPort socket is located on the front and one on the rear of the tray. This design helps reduce the time required for installation at site due to the fact that only the preassembled DisplayPort cable needs to be plugged in on the back. All plug contacts are plated with 24 carat gold. In combination with mounting frame art. no. 8800 two multimedia trays (alternatively one tray combined with a blind cover) can be used per frame with internal dimensions 50 x 50 mm.
