

HS-Repeater

Product number	D1C6065
Weight	0.436kg
Length	30mm
Width	170mm
Height	85mm

Product description

Oehlbach's HS repeater is an adapter and amplifier for extending HDMI cables and processing your digital signals. This HDMI repeater works entirely without a mains adapter and draws its power from the HDMI cable. The passive amplification in this very compact device allows HDMI signals to be processed in such a way that they may be transferred over longer distances. Compatible with all Oehlbach HDMI cables up to 20 metres, several devices and cables may also be switched in sequence so that a maximum distance of around 60 metres may be bridged. The HS repeater supports all current image formats, including 3D, 1080p/120Hz, 36bit Deep Color and xvYCC Color. It also supports the following audio formats: Dolby TrueHD, DTS-HD Master Audio, LPCM, Dolby-AC3, DTS 7.1, DSD.

Oehlbach's HS repeater works perfectly with projectors, Blu-ray players, DVD players, PlayStation 3, HD receivers and Sky receivers.

Product properties

Product Category	HDMI cable
Colour	Black
Screen resolution	1080p Full HD
Features	Reliable contact
Quality level	Performance
Connection type	Audio, Video
Plug type 2	HDMI
Signal direction	OUT
HDMI Features	3D TV at 4 K resolution
Plug type 1	HDMI
