

# i-Connect Lightning | 2 m

<b>Product number</b>	D1C60145
<b>Weight</b>	0.14kg
<b>Length</b>	40mm
<b>Width</b>	250mm
<b>Height</b>	145mm

## Product description

This top class i-Connect cable establishes the perfect connection between iPhone-6, iPhone-5, iPhone 5s, iPhone5c and other audio devices with a USB-A port. Consistent use of exquisite components ensures this high-end cable from the XXL series provides optimum contact between the connected devices at all times. The high-quality solid metal Apple connector and the 24 carat gold-plated USB connector also ensure maximum transmission reliability and signal stability at the critical transitions. The extremely durable fabric sheathing ultimately emphasises the high technological standard of this XXL® i-Connect cable. Oehlbach iPhone 5 Lightning USB cable that is 100% compatible with Apple Due to the fact that compatibility problems are being experienced with some Lightning USB cables that are used with the latest iPhone models, we wish to expressly point out that the cables causing the problems are "cheap cables" that have not been licensed. Oehlbach's Lightning USB cable (XXL i-Connect IP-5/U) naturally works perfectly with all iPhone-5 models – and is also absolutely compatible with the current iPad and iPod models. Charging and synchronisation work absolutely flawlessly! Apple is known not only for focusing on the quality of its hardware but also for making high demands on accessories. That's why Apple awards special licences for all cables and thus authorises external manufacturers to produce them. Many customers circumvent this by purchasing cables from unlicensed no-name suppliers. This is no longer possible with iOS7! The system blocks all cables that are not able to authenticate themselves as original accessories. The current iOS only permits cables by Apple or licensees to be used. In all other cases, users will be warned accordingly and the device will not charge. The XXL i-Connect IP-5/U is a Lightning cable for the iPhone 5 that has been authorised and licensed by Apple. As it is 100% compatible with iOS 7, this high-quality Oehlbach cable may be used with the latest generation of iPhones, iPads and iPods: Made for iPod touch (5th generation), iPod nano (7th generation), iPhone 5, iPad (4th generation), iPad mini.

Product properties

Features	24kt gold plated contacts, Made for iPod, iPhone, iPad, 30 years warranty**
Product Category	Data cable
Colour	Grey
cable length	2 m
Inner conductor material	SPC/OFC - silver-plated oxygen-free copper
Plug type 2	Lightning Connector
Quality level	State of the Art
Surface condition	24 carat gold-plated contacts
Connection type	Audio
Connector material	solid metal plug
Signal direction	IN/OUT
Plug type 1	USB 2.0 Type A
cable geometry	Round
Shielding	Multiple shielding
