

VGA ADP-1

Product number D1C8628

Weight 0.011kg

Product description

VGA adapter for connecting two VGA sockets. The 24 carat gold-plated design minimizes transition resistances and permanently counteracts oxidation. This results in a consistently good connection with the lowest transition resistances over many years. The adapter can be used with any VGA cable without any problems due to its standard screw connection.

Product properties

Colour	Gold
Features	24kt gold plated contacts
Product Category	Plug/connector
Quality level	Excellence
Connector material	solid metal plug
Shielding	Multiple shielding
