

Speaker Wire SP-7 | 20 m | transparent

Product number	D1C202
Weight	0.6kg
Length	90mm
Width	70mm
Height	90mm

Product description

Excellently made stereo loudspeaker cable wound on to a mini coil. This loudspeaker cable is suitable for amplifier performances of up to around 70 watts of power per amplifier channel. The use of oxygen-free copper (OFC) as the conducting material ensures that an extremely clear and true-to-life sound can be achieved with this loudspeaker cable. The cable has also been made from very many ultrathin stranded copper wires – each individual wire possesses a cross-section of around 0.20 mm. This complex design means that the cable is particularly conductive and flexible throughout.

Product properties

Plug type 1	open end
Plug type 2	open end
Inner conductor material	OFC - oxygen-free copper
cable material	plastic
cable length	20 m
cable cross section	2 x 0.75 mm ²
Quality level	Performance
Connection type	Audio
Features	For amplifier performances of up to 70 watts, 30 years warranty**, Stereo speaker cable
Product Category	Loudspeaker cable
Signal direction	IN/OUT
cable geometry	Round
Colour	Transparent
