

Opto MP

Product number	D1C8030
Weight	0.017kg
Length	375mm
Width	380mm
Height	200mm

Product description

Optical cables are first choice – particularly over greater distances – when digital audio signals are to be perfectly protected from electromagnetic interference. They may also be used, for example, in damp rooms thanks to the fact that they do not corrode and that they may be used throughout a large temperature bandwidth. Their very small bending radius of just 24 mm means that ProIn Opto cables are also great for confined spaces.

Product properties

Colour	Blue
Product Category	Digital audio cable
Quality level	Excellence
cable length	150 m
Artikel FH Exklusiv	Ja
Insulation: thickness	0.60 mm
