

Phono PreAmp Ultra | black

Product number D1C13902

Weight 1.37kg

Length 230mm

Width 60mm

Height 300mm

Product description

The renaissance of the LP is in full swing – audiophiles are once again on the lookout for high quality turntables that can be perfectly integrated with their existing, state of the art hi-fi components. If your amplifier or AV receiver doesn't have a phono input, Oehlbach's XXL Phono PreAmp Ultra is just the right tool for you. This distortion-free and low-noise preamplifier, which features a solid aluminium front panel and high quality 24 carat gold-plated contacts, is perfectly suited for connecting moving magnet and moving coil pickup systems. A relay circuit protects sensitive hi-fi components from voltage spikes during start-up. The XXL Phono PreAmp Ultra only weighs in at around 1kg and is powered via an external power supply unit.

Product properties
