DIGITAL SATELLITE CABLE

ANTENNA S SL

The 3-star cable „Antenna S SL“ from Oehlbach ensures interference-free signal transmission of TV signals thanks to its tremendously high shielding rating of 120 dB. An inner conductor made from OFC oxygen-free copper, triple shielding in the PVC protective sheathing and 24-carat gold-plated contacts maximize the signal stability while ensuring perfect contact reliability. A characteristic wave impedance of 75 ohm is attained by using high-quality materials and a sophisticated design. The Antenna S SL is available as 1.5 m, or as 3.0 m for those who wish to be a little more flexible.

nector

SIGNAL DIRECTION

Outer sheath material	Robust plastic sheathing, plastic
Inner conductor material	OFC - oxygen-free copper
cable geometry	Round
Shielding effectiveness	120 dB dB
Shielding	triple shielding
Shielding construction	1 x copper braid
Features	Reliable contact, >120dB Shielding rate, 24kt gold plated contacts , 30 years warranty
Characteristic impedance	Eliminates high-frequency irradiation

item no.	Length	Color	EAN	MSRP (19%)
33027	1.50 m	White	4003635330272	32.99 €
33028	3 m	White	4003635330289	49.99 €
