

AUDIO EXTRACTOR FOR HDMI AUDIO XT

MSRP (19%): 149.00

With the Oehlbach Audio XT, the audio sound track can be decoupled lossless from a complete HDMI® signal and, separated from the video signal, forwarded to another device. The audio signal is output digitally via the optical output or analog via a stereo 3.5mm connector, the maximum resolution is 192 kHz. This means that the Audio XT is also perfectly suited to the high quality of lossless compressed audio formats. The video signal is then transmitted to a connected image display device via the HDMI output without being touched. The complex electronics are located in a compact, solid metal housing. High-quality 24 carat gold-plated contacts guarantee maximum transmission reliability.

The terms HDMI®, HDMI High definition Multimedia Interface® and the HDMI® Logo are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries.

Packaging size	55mm / 165mm / 230mm
Weight (net)	137 g
Colour	Metallic Brown
Housing material	Ultra thin single conductors
Scope of delivery	HDMI Audio Extractor, User Manual, Power Supply
Audio format	DTS, DTS-HD Master Audio, Dolby Digital, Dolby Digital Plus, 5.1 DTS HD, Controle LED
Screen resolution	4K UHD 30Hz
Sampling rate	48 kHz, 192 KHz
Features	24kt gold plated contacts
Input voltage	5 V
Input power	10 W
Input current	2 A
