CRYSTAL STAR

CRYSTAL STAR M

MSRP (19%): 8.99 €

For demanding Hi-Fi connoisseurs and home-cineasts, this cable is a real delicacy. Three ingenious radiating air-tubes, which are embedded into the structure, do offer two advantages: first of all, the the cable gains an enormous stability while it is still offering an outstanding flexibility. On the other hand, the construction allows a perfectly consistent parallellism of both conductors, which results in superb electrical parameter. This air-chamber structure, which has been patented since 1998, is already being used with great success in many other products out of our high end product-line. The inside of the cable is as well to be found on a technologically advanced level. Traditionally Oehlbach exclusively uses commodities of highest performance which guarantee highest purity und thus ensure best possible signal-transfer. 50 single twisted inner strands, measuring only 0,254 mm each, minimize the skin effect reliably. The cable sounds extremely delicate with feathery highs.

Terminal

SIGNAL DIRECTION

120 W
OFC
OXYGEN-FREE
COPPER

Packaging size	375mm / 200mm / 375mm
Colour	Crystal clear
Weight (net)	164 g
Inner conductor material	OFC - oxygen-free copper
cable geometry	Flat
cable cross section	2 x 2.5 mm ²
power max.	For amplifier performances of up to 120 watts
Scope of delivery	Loudspeaker cables, info brochure
cable material	plastic
