

DIGITAL TO ANALOG CONVERTER

DIGI BRIDGE

MSRP (19%): 76.99

The Oehlbach DA Converter of the extra class converts digital to analog audio signals. High resolution coded signals are recorded via a coaxial or optical input. A switch is used to select the desired input and the subsequent output is a 2-channel RCA output. Inside the device, a high-quality Cirrus Logic chip takes over the loss-free conversion from digital to analog. The handy DA Converter is suitable for audio sources in PCM format and supports audio signals up to 192kHz/24Bit. The USB port or the power supply plug is used for power supply. (Dolby and DTS formats are not decoded).

**192 kHz
24 Bit**
**100%

Packaging size	40.00mm / 140.00mm / 225.00mm
Weight (net)	103 g
Colour	Metallic Brown
Housing material	Ultra thin single conductors
Scope of delivery	Digital-to-analog converter, user manual, power supply unit
Air humidity range	5 bis 90 %
Sampling rate	192 KHz
Features	24kt gold plated contacts , precise and stable Cirrus Logic Chips , 100% contact reliability
Input voltage	5 V
Input power	5 W
Input current	1 A
