## HD SATELLITE CABLE

### TRANSMISSION SHIFT S

Oehlbach Transmission Shift S is our HD satellite cable with F-connector for optimum picture and sound quality when connecting satellite receivers, DAB+ radio or even routers such as the Connect Box from Unitymedia. Oehlbach Transmission Shift S comes ready assembled with antenna cable. Together, the cable and the Oehlbach F-connector create the connection quality that defines a high-end home cinema. The high-quality features include 75 Ohm impedance, 100 percent contact area and connectors completely gold-plated with 24 carat.

|                          |                                                                                   |
|--------------------------|-----------------------------------------------------------------------------------|
| Connector material       | High-quality fabric sheathing                                                     |
| Inner conductor material | OFC - oxygen-free copper                                                          |
| cable geometry           | Round, Twisted Pair                                                               |
| Shielding effectiveness  | 120 dB dB                                                                         |
| Shielding                | Quadruple shielding                                                               |
| Shielding construction   | 2 x aluminium foil + 2 x copper braiding                                          |
| Features                 | Made in Germany, 24kt gold plated contacts , German Technology, 30 years warranty |
