SIGNAL SWITCH FOR HDMI

ULTRAHD SWITCH 3:1

MSRP (19%): 89.00

The Oehlbach UltraHD Switch 3:1 puts an end to the frequent replugging of too many source devices. With three HDMI inputs, the device accepts signals up to UltraHD resolution of 2160p and forwards the data stream of the respective desired input to a connected target device without loss of quality. In addition to the UltraHD video signal, all sound formats up to Dolby TrueHD and DTS-HD MA as well as DSD are supported. Both the three HDMI inputs and the HDMI output are 24 carat gold-plated, guaranteeing maximum transmission reliability. The solid metal housing offers compact dimensions with 95 x 25 x 86 mm (WxHxD) and weighs only 136 gr. A remote control is included for convenient switching between the individual inputs.

Packaging size	55mm / 165mm / 230mm
