I-JACK 25

2.5 MM JACK / 3.5 MM 90° JACK

With its smaller audio jack plug sized 2.5 mm on the one side, this three-star audio cable is also suitable for latest-generation headphones because these often only possess the smaller audio interface. The cable also comes with an integrated nylon thread that makes it particularly stable. The flexible ribbon cable has been sheathed with an extremely durable plastic and the inner conductor made from oxygen-free copper (OFC) guarantees stable and high-quality signal transmissions. Strong metal plugs and 24-carat gold-plated contacts are responsible for creating reliable connections and high levels of protection against corrosion.
